

Intermediate SQL Server 2005 System Administration

Setting Up SQL Server 2005	1
Modifying the Computer Name	1
Installing SQL Server 2005	1
Database Basics Review	3
Creating Databases Within SQL Server Management Studio	4
Creating Tables Within SQL Server Management Studio.....	7
Viewing the Database Properties	10
Modifying the Database Properties.....	11
Modifying Table Properties	12
Viewing Table Properties	12
Importing Data Using SQL Server Integration Services	13
Importing Text Data.....	13
Importing Microsoft Access Data.....	18
Listing Providers Supported by SQL Server 2005	23
Using Transact-SQL to Create a New Database.....	24
Filegroups	27
Shrinking the Database and Transaction Log Files	37
Truncating the Transaction Log.....	37
Automatically Shrinking the Database	37
Manually Shrinking the Database.....	38
Manually Shrinking Individual Database Files.....	39
Shrinking the Database Using Transact-SQL.....	40
Exercise 1	41
SQL Server 2005 Backups.....	43
General Backup Information.....	43
The Recovery Models.....	43
Differential Backups	44
Transaction Log Backup.....	44
File/Filegroup Backup	45
Estimating Backup Space Requirements	45
Creating a Backup Device	47
Performing Database, Transaction Log, Differential, and File/Filegroup Backups	49
SQL Server 2005 Restore	58
General Restore Information.....	58
Restoring a Database Using SQL Server Management Studio.....	58
Restoring a Database Using the RESTORE DATABASE Statement	62
Restoring Using the RESTORE LOG Statement.....	64

Automating Database Administration.....	65
Creating Operators	65
SQL Server Agent.....	66
Modifying an Existing Job.....	72
Manually Starting/Stopping a Job.....	72
Flowcharting Job Steps.....	73
Extending Jobs.....	73
Exercise 2.....	74
More Strategies for Automating Database Administration	75
Alerts.....	75
Maintenance Plan Wizard.....	80
Manually Executing the Maintenance Plan	87
Viewing the Maintenance Reports and History	87
Database and Server Maintenance	88
Error Logs	88
Recording Configuration Information	89
Login Account Management.....	89
Database Maintenance	89
Table and Object Maintenance	90
Job Maintenance	90
Windows Server Maintenance	90
Maintenance Checklist.....	91
Exercise 3.....	92
Indexes and Index Performance.....	93
Table Scans, Pages, and Extents.....	93
SQL Server Index Structure.....	94
Clustered and Nonclustered Indexes.....	95
Index Factors that Affect Performance.....	98
General Information.....	98
The Database Engine Tuning Advisor.....	100
Query Optimization	108
Query Optimizer	108
Query Optimization Tools	111
Overriding the Query Optimizer (SET FORCEPLAN ON).....	115
Exercise 4.....	116
Multi-User Considerations.....	117
Locks.....	117
Blocking and Deadlocks	117
Physical Locks	118
Locking Methods	118

Commands that Can Help with Control Locking	119
Viewing Locks and Blocking.....	121
Minimizing Locking and Preventing Deadlocks	125
Multuser Configuration Options.....	126
Detaching and Reattaching Database Files.....	130
Using SQL Server Management Studio to Detach/Reattach Database Files.....	130
Using Transact-SQL to Detach/Reattach Database Files	131
Exercise 5.....	133
Appendix A: Sample Maintenance Checklist.....	134
Appendix B: Solutions to Exercises	135
