

Advanced SQL Server 2005 System Administration

Setting Up SQL Server 2005	1
Modifying the Computer Name	1
Installing SQL Server 2005	1
Microsoft Distributed Transaction Coordinator (msdtc.exe).....	3
The Two-Phase Commit Technology	3
Monitoring MS DTC Services	5
Testing the MS DTC.....	8
Exercise 1	9
Linked Servers	10
Linked Servers Details	10
Linked Server Basics	11
Linked Server Performance and Considerations.....	11
Linked Server Properties.....	12
Configuring a SQL Server Linked Server Using Impersonate	15
Using the Four-Part Qualifier Method to Query the Linked Server	16
Configuring a Heterogeneous Data Source Linked Server and Mapping a Local Login to a Remote Login.....	17
Configuring a Microsoft Access Linked Server	18
Using the OpenQuery Method to Query a Linked Server	19
Ad Hoc Distributed Queries.....	21
Using the OpenRowSet Method to Query a Linked Server.....	21
Linked Server Transact-SQL Stored Procedures.....	23
Exercise 2.....	33
Replication	35
What is Replication?.....	35
Factors that Can Influence Replication.....	35
Who is Responsible?.....	36
Components of the Replication Technology.....	37
Subscription Types and Uses	39
Snapshot Replication	41
Transactional Replication	42
Merge Replication.....	43
Replication Agents.....	45
Configuring Replication.....	47
Snapshot Folder and Snapshot Folder Path	47
Snapshot Folder Permissions	48
Configuring Snapshot Replication.....	49

Creating the Publication.....	49
Creating Push Subscriptions	53
Modifying the Password Used by Multiple Replication Agents	56
Modifying the Security Settings of the Replication Agents	57
Modifying the Distribution or Merge Agent Security Settings	57
Modifying the Account under which the Queue Reader Agent Runs	58
Modifying the Context under which the Queue Reader Agent Makes Connections to the Publisher	58
Manually Starting the Snapshot or Log Reader Agent	59
Exercise 3.....	60
Configuring Transactional Replication.....	61
Creating the Publication.....	61
Creating Pull Subscriptions.....	64
Exercise 4.....	68
Configuring Merge Replication	69
Creating the Pull Subscription from the Publisher	73
Miscellaneous Replication Topics	76
Modifying the Properties of a Publication using SQL Server Management Studio	76
Modifying the Articles of a Publication.....	76
Deleting a Publication.....	77
Deleting a Subscription.....	77
Disabling Publication and Distribution.....	78
Configuring a Distributor Using the Configure Distribution Wizard.....	79
Configuring a Publisher to Use a Remote Distributor	81
Configuring a New Publication on a Distributor Server.....	83
Database Mirroring	84
SQL Server Editions that Support Database Mirroring	85
The Benefits of Database Mirroring	85
Database Mirroring Operating Modes	86
Transaction Safety and Operating Modes.....	86
Role Switching.....	87
Configuring Database Mirroring.....	88
Configuring the Database Mirroring Mirror Endpoints and Mirror Security	91
Mirroring Options on the Database Properties Options Page.....	92
Obtaining Mirroring Status and Performance Information.....	92
Replication, Log Shipping, and Database Mirroring	93
Appendix A: Log Shipping.....	94

Log Shipping Requirements	95
Log Shipping Jobs.....	95
Log Shipping Preparation	96
Configuring Log Shipping	97
Appendix B: Class Databases and Tables.....	101
Appendix C: Providers.....	103
Appendix D: Solutions to Exercises	104
