

Intermediate SQL Server Integration Services

What You Will Learn.....	1
Identifiers	2
SSIS Variables	3
Using the Variables Window	4
Characteristics of Variables	6
Defining User Variables	7
Delete a Variable Expression.....	9
Referencing Variables.....	10
Referencing Data Columns.....	10
The ExportContracts Project.....	11
Project Purpose	11
Create the Project.....	11
Create the Package Scoped Variables.....	12
Add the Package Components	12
Test the Package Progress.....	17
SSIS Expressions	18
The Equivalence Operator	18
String Literals.....	18
Numeric Literals	21
Boolean Literals	22
Concatenation	24
Comments	25
Line Continuation	25
Exercise 1	27
Expanding the ExportContracts Project.....	29
Project Purpose	29
Open the ExportContracts Project	29
Creating the Additional Variables	30
Modifying the OLE DB Connection Manager to use the Variables.....	31
Modifying the Flat File Connection Manager to use an Expression	32
Test the Package	33
Using Parameters	34
Using Parameters with an OLE DB Source - Data Access Mode Example.....	34
Using Parameters with a Parameterized Procedure	38
The Row Count Transformation	42
Project Purpose	42
Add the Row Count Transformation and Variable.....	42

Add the Expression to the Precedence Constraint	43
Test the Package	44
Exercise 2.....	45
Loop Containers: Foreach and For Loop	47
For Loop Container.....	47
The Package Purpose:.....	47
Create the Package.....	48
The Recordset Destination.....	50
Project Purpose	50
Create the Package (MusicData Project)	51
Create the First Data Flow	51
Create the Second Data Flow.....	53
Exercise 3.....	61
Loop Through Files in a Specified Folder	63
Create the ProcessFiles Project.....	63
Appendix A: SSIS Operators	73
Appendix B: Data Types Conversion Chart	76
Appendix C: Class Setup	78
Appendix D: Solutions to Exercises	79
