

# Introduction to Crystal Reports

What You Will Learn.....	1
Creating a Simple Report.....	2
Connecting to a Data Source.....	3
Exploring the Crystal Reports Workspace.....	9
Using Toolbars and Menus .....	9
Working with Open Reports .....	11
Using the Workbench .....	11
Using the Report Design Explorers .....	12
Understanding Report Sections.....	13
Working with Database Fields.....	15
Using the Field Explorer .....	15
Learning about Your Data .....	16
Inserting Database Fields.....	18
Moving and Resizing Fields .....	19
Removing a Field.....	20
Using the Report Explorer .....	21
Previewing, Saving, and Refreshing Report Data .....	22
Using the Preview Tab.....	22
Saving the Report.....	24
Refreshing Report Data.....	25
Exercise 1: Creating a Simple Report.....	26
Sorting Data .....	27
Filtering Data .....	29
Creating a Report Based on a Query or View.....	29
Using the Select Expert.....	31
Exercise 2: Sorting and Filtering Data.....	38
Grouping Data.....	39
Inserting a Group .....	39
Previewing a Grouped Report.....	42
Changing Group Options .....	43
Adding Multiple Groups (Using the Insert Group Command).....	44
Removing a Group.....	45
Using the Group Expert for More Complex Grouping.....	45
Grouping on Date Data .....	47
Exercise 3: Grouping Data.....	50

Summarizing Data .....	51
Inserting a Grand Total .....	51
Editing a Summary .....	53
Removing a Summary.....	54
Summarizing on Groups .....	54
Sorting Data Based on Summaries .....	55
Using Summaries to Select Data.....	57
Creating Drill-Down Reports.....	58
Suppressing Detail Data.....	59
Showing Hidden or Suppressed Data .....	59
Exercise 4: Summarizing Data.....	60
Creating Reports from Data in Related Tables .....	61
Creating Formula Fields .....	65
Using the Formula Editor to Create a New Formula Field.....	65
Navigating the Formula Editor .....	67
Building String Formulas.....	71
Adding a Formula Field to the Report .....	73
Creating Arithmetic Formulas .....	73
Editing a Formula Field .....	74
Exercise 5: Working with Formula Fields .....	75
Inserting Special Fields.....	76
Understanding the Special Fields.....	76
Inserting a Special Field.....	78
Entering Summary Information .....	78
Inserting Text and Graphics.....	79
Inserting a Text Object.....	79
Editing Text .....	79
Including Field Information in a Text Object.....	80
Inserting a Picture .....	80
Formatting Text Objects and Fields.....	81
Using the Format Editor.....	81
Formatting Fields .....	84
Using the Formatting Toolbar.....	87
Formatting Multiple Objects.....	87
Changing Default Field Formats.....	88
Formatting Report Sections .....	90
Exercise 6: Customizing the Appearance of Your Reports .....	92

Applying a Report Template.....	93
Printing and Exporting Reports .....	94
Preparing Reports for Distribution.....	94
Printing Reports .....	96
Exporting Reports .....	96
Appendix A: Working with ODBC Data Sources .....	100
Setting Up an ODBC Data Source.....	100
Connecting to an ODBC Data Source .....	103
Appendix B: Creating a Report from SQL Server Data .....	104
Appendix C: Using the Standard Report Wizard.....	107
Appendix D: Solutions to Exercises .....	112
