

Introduction to Access 2010

What You Will Learn.....	1
Getting Started with Access 2010.....	2
Opening an Existing Database	3
Understanding the Access Interface.....	4
Using the Ribbon to Locate Commands	5
Using Backstage View	6
Using the Navigation Pane.....	8
Interpreting the Security Warning in the Message Bar.....	12
Working with Tables in Datasheet View	12
Understanding the Organization of Tables (Database Terminology)	13
Navigating Through Your Records.....	13
Using the Records Command Group	14
Adding a New Record.....	14
Entering Data	15
Editing Records.....	17
Selecting Records.....	17
Deleting Records.....	18
Resizing Columns	19
Rearranging Columns	19
Exercise 1: Working with Tables in Datasheet View	20
Finding and Replacing Data.....	21
Using the Search Box.....	21
Using the Find Command	22
Using the Replace Command.....	23
Exercise 2: Using the Find and Replace Commands (Optional)	24
Using Table Design View	25
Viewing a Table in Design View.....	25
Understanding Table Design.....	26
Creating Tables	27
Designing Your Table.....	27
Creating a New Table in Design View	30
Establishing a Primary Key	31
Saving the Table	32

Modifying Table Design	34
Adding a Field.....	34
Deleting a Field.....	34
Changing the Field Order.....	35
Saving Changes to Table Design	35
Exercise 3: Modifying Table Design	36
Sorting Data	37
Filtering Data	38
Using the Filter Command.....	39
Toggling a Filter	40
Clearing a Filter	40
Applying a Custom Filter.....	41
Applying a Filter Based on a Selection.....	42
Exercise 4: Using Filters.....	44
Querying Data.....	45
Creating a Query in Design View	45
Saving a Query.....	48
Using Comparison Operators.....	48
Using Wildcards.....	49
Using Logical Operators	51
Exercise 5: Querying Data	54
Exercise 6: Querying Data Using Logical Operators (Optional).....	55
Combining Logical Operators.....	56
Exercise 7: Querying Data Using Compound Operators	57
Customizing Your Queries	58
Rearranging and Resizing Fields in a Query	58
Removing Fields from a Query.....	58
Sorting Query Results	58
Excluding Fields from the Query Results.....	59
Searching for Blank Fields.....	60
Exercise 8: Customizing Your Queries.....	61
Working with Date Fields	62
Setting Up Date Fields	62
Adding Date Data	62
Entering Today's Date	63
Querying Dates	63

Exercise 9: Working with Date Data	66
Performing Queries on Multiple Tables	67
Setting Criteria for Multiple-Table Queries.....	68
Understanding Local vs. Global Relationships.....	69
Exercise 10: Querying Data from Multiple Tables.....	70
Performing Calculations in Queries.....	71
Creating Calculated Fields in Queries	71
Setting Criteria for Calculated Fields	72
Using Calculated Columns in Other Calculations	73
Performing Calculations on Fields from Related Tables.....	73
Performing Calculations with Dates	74
Concatenating Text Values	74
Exercise 11: Using Calculations in Queries.....	75
Creating Action Queries	76
Creating Update Queries.....	76
Creating Delete Queries.....	78
Creating Make-Table Queries.....	79
Creating Append Queries.....	81
Exercise 12: Running Update, Delete, and Make-Table Queries	82
Creating a Basic Form	83
Creating a Basic Form Using the Form Tool.....	83
Understanding the Form Views	84
Using Form View to Work with Data.....	85
Creating a Basic Report	87
Creating a New Report Using the Report Tool.....	88
Understanding the Report Views	89
Printing the Report.....	90
Working with External Data	91
Exporting Tables.....	91
Importing Database Objects.....	94
Linking Tables	104
Managing Your Access Database	105
Copying Tables	105
Renaming Objects.....	106
Deleting Objects.....	106
Compacting and Repairing Databases	107
Exercise 13: Importing Data and Creating Forms and Reports (Optional)	108

Exercise 14: Summary Exercise	109
Appendix A: Creating a New Database	111
Appendix B: Creating a Filter By Form	113
Appendix C: Ribbon Tabs in Access	116
Appendix D: Understanding the Access File Formats.....	117
Appendix E: Getting Help in Access 2010	120
Appendix F: Formatting Tables and Queries.....	121
Appendix G: Linking from a SQL Server Database.....	124
Appendix H: Solutions to Exercises	132
