

# Introduction to Access

What You Will Learn.....	1
Getting Started with Access.....	2
Opening an Existing Database .....	3
Understanding the Access Interface.....	4
Using the Ribbon to Locate Commands .....	5
Using Backstage View .....	6
Using the Navigation Pane.....	7
Interpreting the Security Warning in the Message Bar.....	12
Working with Tables in Datasheet View .....	13
Understanding the Organization of Tables (Database Terminology).....	13
Navigating Through Your Records.....	14
Using the Records Command Group .....	15
Adding a New Record.....	15
Entering Data .....	15
Editing Records.....	18
Selecting Records.....	19
Deleting Records.....	19
Resizing Columns .....	20
Rearranging Columns .....	20
Exercise 1 .....	21
Finding and Replacing Data.....	22
Using the Search Box.....	22
Using the Find Command .....	23
Using the Replace Command.....	24
Exercise 2 (Optional) .....	25
Using Table Design View .....	26
Viewing a Table in Design View.....	26
Understanding Table Design.....	27
Creating Tables .....	28
Designing Your Table.....	28
Creating a New Table in Design View .....	32
Establishing a Primary Key .....	33
Saving the Table .....	34
Modifying Table Design.....	35
Adding a Field.....	35

Deleting a Field.....	35
Changing the Field Order.....	35
Saving Changes to Table Design .....	36
Exercise 3.....	37
Sorting Data .....	38
Filtering Data .....	39
Using the Filter Command.....	40
Toggling a Filter .....	41
Clearing a Filter .....	41
Applying a Custom Filter.....	42
Applying a Filter Based on a Selection.....	43
Creating a Filter By Form (Optional) .....	45
Exercise 4.....	48
Querying Data.....	49
Creating a Query in Design View.....	49
Saving a Query.....	52
Using Comparison Operators.....	53
Using Wildcards.....	53
Using Logical Operators .....	56
Exercise 5.....	59
Exercise 6 (Optional) .....	60
Combining Logical Operators.....	61
Exercise 7 .....	63
Customizing Your Queries .....	64
Rearranging and Resizing Fields in a Query .....	64
Removing Fields from a Query.....	64
Sorting Query Results.....	64
Excluding Fields from the Query Results.....	65
Searching for Blank Fields.....	65
Exercise 8.....	67
Creating a New Database (Optional) .....	68
Planning a Database.....	68
Creating a Blank Database.....	69
Creating a Database from a Template.....	70
Working with Date Fields.....	71

Setting Up Date Fields .....	71
Adding Date Data .....	71
Entering Today's Date .....	72
Querying Dates .....	72
Exercise 9.....	75
Performing Queries on Multiple Tables .....	76
Setting Criteria for Multiple-Table Queries.....	78
Understanding Local vs. Global Relationships.....	78
Exercise 10.....	80
Performing Calculations in Queries.....	81
Creating Calculated Fields in Queries .....	81
Setting Criteria for Calculated Fields .....	82
Using Calculated Columns in Other Calculations .....	83
Performing Calculations on Fields from Related Tables (Optional) .....	83
Performing Calculations with Dates .....	84
Concatenating Text Values .....	84
Exercise 11 .....	85
Creating Action Queries .....	86
Creating Update Queries.....	86
Creating Delete Queries.....	88
Creating Make-Table Queries.....	89
Creating Append Queries (Optional).....	91
Exercise 12.....	92
Creating a Basic Form .....	93
Creating a Basic Form Using the Form Tool.....	93
Understanding the Form Views .....	94
Using Form View to Work with Data.....	95
Creating a Basic Report .....	97
Creating a New Report Using the Report Tool.....	97
Understanding the Report Views .....	99
Printing the Report.....	100
Working with External Data .....	101
Exporting Tables.....	101
Importing Database Objects.....	103
Linking Tables .....	115
Managing Your Access Database .....	124
Copying Tables.....	124

Renaming Objects.....	125
Deleting Objects.....	126
Compacting and Repairing Databases .....	126
Appendix A: Ribbon Tabs in Access.....	127
Appendix B: Solutions to Exercises .....	128
