

Intermediate Applications of Access

What You Will Learn.....	1
Working with Field Properties.....	2
Setting the Field Size	2
Assigning a Caption	3
Specifying a Default Value.....	4
Setting Up a Validation Rule	5
Displaying Validation Text.....	5
Requiring Data Entry	6
Allowing Zero-Length Strings.....	6
Assigning a Custom Format.....	8
Using Input Masks for Data Entry	12
Using the Lookup Wizard.....	15
Exercise 1	18
Creating Indexes and Primary Keys	19
Using Indexes.....	19
Creating Primary Keys.....	21
Exercise 2.....	24
Creating Parameter Queries	25
Creating Queries with Aggregate Operators.....	27
Using the Where Clause to Specify Criteria.....	28
Calculating Subtotals with Group By	29
Applying Criteria to Your Totals (Optional)	29
Displaying Grand Totals in Datasheet View	29
Exercise 3.....	31
Exercise 4.....	32
Working with Forms	33
Using the Form Wizard.....	34
Viewing the Form	36
Working with Form View	37
Modifying Form Design	39
Understanding the Form Sections (Design View)	41
Working with Controls	42
Formatting the Form	51
Adding and Deleting Controls	53
Changing the Tab Order.....	59
Saving the Form.....	59

Exercise 5.....	60
Creating and Viewing Reports.....	61
Using the Report Wizard	62
Viewing the Report.....	65
Modifying the Report Design	66
Understanding Report Sections (Design View).....	67
Working with Controls	67
Formatting Your Reports	69
Adding and Deleting Controls	71
Working with the Page Footer	73
Saving the Report Design	75
Exercise 6.....	76
Preparing a Report for Printing.....	77
Previewing the Report.....	77
Laying Out Your Report Pages.....	78
Printing the Report.....	81
Grouping and Sorting in a Report.....	82
Sorting and Grouping Data in the Report Wizard	82
Using the Group & Sort Command	85
Sorting Your Data.....	86
Changing Grouping Options in the Group, Sort, and Total Pane.....	87
Grouping on Multiple Fields.....	89
Setting Group Options in the Report Wizard.....	90
Exercise 7.....	92
Summarizing Data in Reports.....	93
Using the Summary Options in the Report Wizard	93
Using the Totals Command	96
Exercise 8	98
Using Calculations and Functions in a Report.....	99
Creating Calculations in Reports	99
Using Functions to Summarize Data	101
Using the Immediate IF (IIF) Function.....	101
Exercise 9	103
Creating Mailing Labels and Form Letters.....	104
Using the Label Wizard	104
Creating Form Letters (Optional)	107

Appendix A: Form and Report Controls..... 111
Appendix B: Solutions to Exercises 114
