

# Introduction to Digital Editing Using Premiere Pro

What You Will Learn.....	1
Premiere Pro Start Screen .....	2
Project Settings .....	3
Workspace.....	3
Timeline .....	5
Project .....	5
Monitors .....	6
Tools .....	7
Audio Master Meters .....	7
Importing Clips .....	8
Importing Still Images .....	11
Organizing Clips .....	11
Placing a Clip in the Timeline .....	12
Creating a Sequence.....	12
The Parts of the Timeline.....	13
Moving a Clip to the Timeline.....	14
Zooming In and Out.....	14
Inserting a Clip between Clips.....	15
Selecting Clips .....	15
Deleting a Clip from the Timeline .....	15
Previewing the Project .....	16
Simple Video-Editing Techniques .....	17
Shortening Clips.....	17
Using the Ripple Edit Tool .....	18
Inserting Space between Clips .....	18
Using the Rolling Edit Tool.....	19
Changing a Clip Speed.....	19
Exercise 1 .....	20
Additional methods of Editing.....	21
Splitting Clips .....	23
Exercise 2.....	24
Creating Titles.....	25
Titler Workspace.....	25
Creating a Title .....	26
Adding the Title to the Sequence.....	27

Fading a Title .....	27
Creating a Rolling or Crawling Title .....	27
Exercise 3.....	28
Working with Audio .....	29
Import Audio Clips .....	29
Adding Audio Transitions.....	29
Adding Audio Effects .....	30
Exercise 4.....	31
Video Transitions.....	32
Adjusting the Transition .....	32
Exercise 5.....	33
Fine-Tuning Transitions.....	34
Changing the Default Transitions .....	34
Changing Transition Parameters.....	34
Using the A/B Mode .....	35
Exercise 6.....	36
Applying Effects .....	37
Applying Effects .....	37
Output Options.....	38
Removing Unused Clips .....	38
Rendering the Project.....	38
Creating an MPEG4 file.....	38
Publishing for YouTube and Vimeo .....	39
Appendix A: Shortcuts for Premiere Timeline Window .....	40
Appendix B: Solutions to Exercises .....	41
