

Intermediate Windows XP Administration

Introduction.....	1
Networking Overview.....	1
Setting Up a Network Connection	2
Connecting to a Local Area Network	2
Understanding Domains.....	3
Exercise 1 -- Connecting to a Domain.....	6
Exercise 2 – Joining a Workgroup.....	7
Windows XP Professional and NetWare Connectivity	8
Overview.....	8
Introduction to Windows XP Professional and NetWare Connectivity.....	8
Installing the Microsoft Client for NetWare.....	10
Windows XP Professional and UNIX Connectivity.....	11
Overview.....	11
What's New in Microsoft Services for UNIX.....	11
Introduction to Windows 2000 Professional and UNIX Connectivity.....	12
Planning and Installing Services for UNIX on Windows XP Professional.....	13
Windows XP Professional Startup Process.....	16
Power-on Self Test.....	16
Starting the Computer.....	16
Bootstrap Loader Process	17
Operating System Selection.....	18
Hardware Detection	19
Loading and Initializing the Kernel	19
Logging On to the Operating System	20
Understanding the Boot.ini Naming Convention.....	20
Using ARC Pathnames	20
Multi Syntax.....	20
SCSI Syntax	21
Signature Syntax.....	21
Ntbootdd.sys	22
Editing Boot.ini.....	22
Driver Cabinet File	23
Performance Monitoring.....	24
What's New	24
Performance Monitoring Concepts.....	24

Scope of Performance Data	24
Monitoring Tools	26
Task Manager.....	27
Starting Task Manager.....	27
Working with Task Manager	28
Monitoring Applications.....	29
Monitoring Processes.....	29
Monitoring System Performance	33
Monitoring Networking	35
Monitoring Users	36
Performance Monitor.....	37
System Monitor.....	38
Performance Logs and Alerts.....	44
Comparison of Performance Monitor With Task Manager	50
Computer Management Window	51
Event Viewer	53
Event Viewer Overview.....	53
Working With Event Viewer Logs	55
Microsoft Management Console (MMC)	57
Exercise 3 – Performance Monitoring.....	59
Troubleshooting Problems with Performance Tools	60
Investigating Zero Values.....	60
Investigating Other Problems with Performance Tools.....	60
Monitoring Remote Computers	62
Methods of Monitoring.....	62
Troubleshooting.....	64
Troubleshooting Windows XP Professional Setup.....	64
General Troubleshooting Strategy	64
Startup and Recovery Tools.....	68
Safe Mode.....	68
Recovery Console.....	70
System Restore.....	73
Maintenance and Update Tools	77
Chkdsk	77
Disk Defragmenter.....	77
Using Windows Update	82
