

Managing a Network Using Windows Server 2003

The Active Directory Directory Service	1
Active Directory Key Core Components	2
Domain Controllers (DC)	3
Architectural Components of Active Directory	3
AD Naming Conventions.....	10
Windows Server 2003 AD Domain Functional Levels	11
Windows Server 2003 Forest Functional Levels	11
Active Directory Users and Computers Console	12
Starting the Active Directory Users and Computers Console	12
Managing User Accounts.....	12
Creating a Domain-Level User Account.....	15
Managing Organizational Units.....	17
Moving an Object Within the AD Hierarchy.....	18
Modifying Object Properties.....	18
Reset the User Password.....	19
Configuring User Object Properties.....	19
Exercise 1	25
Groups.....	26
Group Policies.....	32
Managing the Group Policies.....	33
Accessing Group Policy Objects Using ADUC.....	33
Creating/Editing New Group Policy Objects.....	34
Modifying the Group Policy Settings	34
Password Policies.....	34
Kerberos Policies	37
Account Lockout Policies.....	39
Exercise 2.....	41
Managing Resources	42
NTFS 5 (New Technology File System)	42
Security	44
Four Levels of Security.....	44
Notes on Permissions.....	44
Sharing Folders and Files.....	45
Share Level Permissions	49
Stopping a Share	52

Shadow Copies of Shared Folders	52
Accessing the Shared Folder Shadow Copies.....	54
Creating Shares from the Command Prompt.....	55
Exercise 3.....	56
NTFS File and Folder Permissions	57
Overriding Inherited Permissions	62
Working With the Advanced NTFS Permissions (Special Permissions)	63
The NTFS Special Permissions	64
Ownership.....	65
Working with Rights.....	67
Exercise 4.....	69
Working with Profiles.....	70
The Role of User Profiles	70
Settings Stored in User Profiles Summary.....	70
Types of Profiles	71
Profile Database Structure	72
The Default Users Profile	72
The All Users Profile Folder.....	72
Profiles and the Registry.....	73
Moving Profiles to the Network	73
Logon Scripts.....	78
Logon Script Order of Execution.....	78
Storing Logon Scripts	79
Logon Script Variables	79
Creating a Logon Script.....	80
Assigning the Logon Script to a Single User.....	81
Assigning Logon Scripts Many Users Using Group Policy	81
Controlling Hard Drive Space Usage	83
Enabling Volume Limits.....	83
The Volume Limit Options.....	83
Creating a New Quota.....	84
Exercise 5.....	85
Exercise 6.....	86
Printing Services	87
Sharing Your Printer.....	87
Printing Features of the Windows Server 2003	87
Printing Terms and Concepts.....	88
Types of Network Printers	89
Adding a Local Printer.....	89

Connecting to a Network Printer	90
Adding Printers Through Active Directory Users and Computers.....	91
Creating a Print Queue for a TCP/IP Printer	91
Configuring Printer Properties.....	92
Solutions to Exercises.....	96
Appendix A: Built-In Groups	98
Appendix B: Special Identity Groups.....	100
Appendix C: Supplemental Microsoft Web Information.....	101
