

Intermediate Applications of Visio

Introduction.....	1
Creating Custom Templates.....	2
Why Customize?.....	2
Creating a New Template	2
Adding a Background and Color Scheme.....	3
Inserting a Logo	6
Creating New Stencil Sets	8
Setting Default Font and Size for Text	10
Setting Up the Page.....	13
Saving the File as a Template	16
Exercise 1	19
Using Themes	20
Exercise 2.....	23
Linking and Embedding in Visio.....	24
Overview of Linking and Embedding.....	24
Linking.....	24
Embedding	30
Linking a PowerPoint Presentation.....	32
Exercise 3.....	33
Importing Special Graphics Formats	34
Importing an Illustrator File.....	35
Importing AutoCAD Drawings.....	36
Using Custom Properties	39
Entering Custom Properties Values for Multiple Shapes	39
Creating a New Property.....	41
Adding Custom Properties to Individual Shapes	43
Creating Reports Based on Properties	44
Generating an HTML Report.....	44
Generating an Excel Report	49
Exercise 4.....	50
Linking Diagrams to Databases	51

Adding Behaviors to Shapes	57
Visio's Built-In Behaviors	57
Adding Our Own Behaviors	59
Recording and Running Macros (Optional).....	64
Recording the Macro.....	64
Changing Security Settings.....	66
Running the Macro	66
Exercise 5.....	67
Using the Visio Viewer.....	68
More Information on Other Drawing Types.....	69
Drawing Maps.....	69
More on Network Diagrams	72
Color-Coding Network Diagrams.....	74
Appendix A: Solutions to Exercises	77
