

Introduction to C Programming

An Introduction to Programming in C	1
Portability.....	1
A First Program.....	1
Notes on Writing C Programs.....	2
An Overview of the C Language	2
File Inclusion	3
Why Use File Inclusion?.....	3
Output Using the printf Function.....	4
Conversion Specification for the printf Function	5
Escape Characters for the printf Function	7
Variables	9
Integer Variables.....	9
More on Declaring Variables.....	9
Floating Point Variables	10
Arithmetic Operators	11
Rules For Naming Variables (Identifiers).....	11
Assigning Values to Variables.....	13
<i>Exercise 1: Console Output</i>	14
Input with the scanf Function	15
Conversion Specification for scanf.....	16
<i>Exercise 2: Console Input</i>	19
Comments in a C Program	20
Programming Style	21
Conditionals (The if Statement).....	22
Using else if	23
Comparison Operators	24
Models for Using the if Statement.....	24
<i>Exercise 3: Conditional Statement</i>	26
Logical Operators.....	27
<i>Exercise 4: Complex Conditionals</i>	29
Loops.....	30
while Statements	30
<i>Exercise 5: While Loops</i>	33
for Statements	34
Breaking Out of Loops.....	37

<i>Exercise 6: For Loops</i>	39
Other Control Flow Statements	40
Operator Potpourri	42
Conditional Operator	42
Using a char Data Type and the %c Conversion Specifier	44
CTYPE Functions	45
<i>Exercise 7: Potpourri</i>	46
Portability.....	47
Symbolic Constants	47
The switch Statement.....	49
<i>Exercise 8: switch Statement</i>	51
Arrays.....	52
Character Arrays (Strings)	54
<i>Exercise 9: Arrays</i>	55
Two Dimensional Arrays.....	56
String Manipulation Functions	57
A Partial List of the Available String Functions.....	57
Using the strlen Function.....	58
<i>Exercise 10: String Library Functions</i>	59
Appendix A: Summary of Operators in the C Language.....	60
Arithmetic Operators	60
Relational Operators	60
Logical Operators.....	60
Assignment Operators.....	61
Appendix B: Rules of Precedence	62
Appendix C: Loading and Using the C Compiler.....	63
Starting the Compiler.....	63
Customizing the Environment	63
Setting up the Screen	63
Debugging.....	64
Command Line Arguments.....	64
Appendix D: Keyboard Shortcuts.....	65
Appendix E: ASCII Tables	66
Appendix F: C Programming References.....	69
