

Intermediate JavaServer Pages (JSP)

About the Course	1
What Will You Learn?.....	1
Who Is the Intended Audience?.....	1
Introductory Information	2
JSP.....	2
Tomcat Server Host and Java	2
Tomcat Directory Structure	2
Development and Deployment	3
Environment Variables	3
Starting and Terminating Tomcat	3
Execution Environment	3
Formatting Conventions.....	4
Editing JSP Pages	4
Basic JSP Review	5
Layered Software Architecture.....	5
Review of Basic JSP Elements	5
Scriptlets.....	6
Declarations	6
Expressions	6
Directives	6
Actions	7
Review of the Built-in Environment.....	8
Methods of the <code>request</code> Object.....	8
Review of Java Classes and JavaBeans	9
Creating Java Classes.....	10
Creating Java Packages.....	11
JavaBeans.....	12
Review	17
Exercise 1.....	17
More on Cookies, Sessions, and Applications.....	18
Using the Client for Storing Data	18
Using the Server for Storing Data.....	20
<code>session</code> and <code>application</code> objects	20
Handling Sessions Without Cookies Through URL Rewriting.....	22
Review	24
Exercise 2.....	24
Extending Java Classes and JavaBeans	25
Inheritance.....	25

Constructing Subclasses.....	27
Overloading and Overriding	29
Overriding with a Polymorphic Variable.....	31
Abstract Classes	32
Interface Classes	33
Review	34
Exercise 3.....	34
Handling Errors in JSP.....	35
Syntax Errors	35
Runtime Errors.....	36
Exception Objects	36
Using try/catch Blocks	37
Built-In Specific Exceptions.....	38
Catching Multiple Exceptions.....	39
Throwing Exceptions	40
Customized Exceptions.....	41
Printing Errors to Console	41
Using JSP Error Pages	42
Review	43
Exercise 4.....	43
Custom JSP Tags	44
Tag Libraries.....	44
Downloading and Installing Request Tag Library.....	44
Using a Tag Library	46
Connecting JSP with the Tag Library.....	46
HTTP Headers	46
Request Parameters.....	47
Setting Attributes	48
Request Properties	49
Java Tag Support.....	50
Tag Library Descriptors Files	50
Creating a New Tag Library	52
URI, Prefix, and Tags to be Implemented	52
Modifying the web.xml File	52
Creating the Tag Library Descriptor File.....	53
Implementing Java Support Classes	53
Using the Developed Tag in JSP	54
Accessing Page Information in a Tag Support Class.....	55
Review	55
Exercise 5.....	56
JSP Filters	57

Connecting Filters to Resources	57
The Filter Interface	58
Filtering JSP Pages	59
Using Filters for Authentication	60
Review	61
Exercise 6.....	62
Accessing Files on the Server.....	63
The File Class	63
File Streams	64
Text Files	64
Writing Text Files.....	64
Reading Text Files	66
Review	67
Exercise 7.....	67
Selected Online JSP Resources.....	68
