

# Advanced Perl Programming

Introduction.....	1
Is This Class Right for You? Perl Review .....	3
Is This Class Right for You? Database Concepts .....	4
Is This Class Right for You? SQL Commands .....	5
Basic Perl Review .....	7
How To Obtain Perl .....	7
Choosing an Editor .....	7
Directory .....	8
Template .....	8
Perl Command Line Options .....	8
Variables .....	9
Convention.....	9
Special Variables .....	10
Environment Variables .....	10
Variable Scope .....	10
Use Declaration.....	10
Require Declaration .....	10
Basic Arrays.....	11
Basic Hashes .....	11
Subroutines .....	12
File Access .....	12
Modules.....	13
Database Review.....	14
Table .....	14
DBMS .....	14
RDBMS.....	15
Data Types .....	15
Database Terminology Defined .....	15
Review of Structured Query Language.....	16
Features of SQL .....	16
SQL Operators .....	16
SQL Statements .....	17
Flat File Databases Access.....	18
Group Exercise 1.....	19
Exercise 1 .....	26

Perl Database Interface .....	27
ODBC .....	28
Standard SQL Syntax.....	28
Standard Error Code .....	28
Rich Meta Data .....	28
Additional Attributes and Options .....	28
ODBC Driver from Perl.....	29
DBI and ODBC.....	29
DBI Programming.....	29
Handles .....	29
Driver Handles .....	29
Database Handle .....	29
Statement Handle .....	30
Datasources .....	30
DBI Connection Examples .....	31
Automatic Error Reporting .....	31
Error Diagnostics Methods .....	31
Quote Method .....	32
Methods of Fetching Data.....	32
Group Exercise 2.....	33
Exercise 2.....	34
System Configuration .....	35
More Complicated SQL Statements .....	35
Additional Statements.....	35
Inserting Records .....	36
Updating Records.....	37
Deleting Records.....	37
Group Exercise 3.....	38
Exercise 3.....	40
Creating Databases and Creating and Dropping Tables .....	41
Advanced Level Data Reporting.....	41
ORDER BY .....	41
GROUP BY .....	41
Group Exercise 4.....	43
Exercise 4.....	44
Web Interfaces .....	45

Group Exercise 5.....	46
Exercise 5.....	55
Appendix A: Installation of Modules from Windows Using Active State Perl.....	56
Appendix B: User Names and Passwords.....	56
Appendix C: Example of Using ODBC Drivers.....	57
Appendix D: Testing SQL Commands.....	58
Appendix E: Verification of ODBC Drivers .....	59
Appendix F: Oracle Class Tables and Column Names.....	61
Appendix G: MS SQLSVR Class Tables and Column Names.....	62
Appendix H: MySQL, MSSQLServer and Oracle Class Tables and Column Names .....	64
Appendix I: SQL Commands.....	66
Appendix J: Student Disk .....	69
Appendix K: Solutions to Exercises .....	71
