

Introduction to UNIX

What You Will Learn.....	1
Understanding the UNIX Operating System	2
Understanding UNIX's Features and Capabilities.....	2
Tracing UNIX's History	6
Logging on to UNIX.....	8
Typing Commands.....	8
Understanding UNIX Shells	9
Logging Out.....	10
The UNIX File System	11
Understanding the Directory Structure	11
Determining Your Current Directory.....	11
Changing Directories	12
Listing Files	13
Copying Files.....	17
Moving and Renaming Files.....	19
Displaying Files	21
Removing Files	22
Creating Directories	23
Removing Directories	24
Comparing UNIX and DOS.....	26
Exercise 1	27
Dealing with Control Characters in File Names	28
Working with Wildcards.....	30
Exercise 2.....	33
Linking Files	34
Creating a Hard Link	34
Creating Symbolic Links	35
Tour of the UNIX File System.....	37
File Viewing Commands	38
Viewing Files Page-by-Page.....	38
Searching for Text Strings	39
Showing the Beginnings and Ends of Files	41
Sorting File Contents	41
I/O Redirection.....	45

Redirecting Output.....	45
Piping Commands.....	46
Man Pages	48
Exercise 3.....	50
Using the vi Editor	51
Opening a File in <i>vi</i>	51
Understanding <i>vi</i> Command Modes.....	51
Moving Around in a Document	52
Inserting and Replacing Text.....	52
Exiting <i>vi</i>	53
Running Other <i>vi</i> Commands.....	54
Using the <i>vi</i> Tutorial	57
Exercise 4.....	58
Learning about Other Users	59
Using the <i>who</i> Command	59
Using the <i>finger</i> Command.....	60
Communicating with Other Users	62
Using <i>banner</i> to Send Messages to a User's Terminal.....	62
Using <i>write</i> to Send Messages	62
Enabling and Disabling Screen Messages	63
Using <i>talk</i> to Converse with Other Users (Optional)	63
Using Electronic Mail.....	64
Process Management	67
Using <i>ps</i> to List Running Processes	67
Running Commands in the Background.....	68
Killing Processes.....	69
Understanding Job Control	70
Using <i>cron</i> to Schedule Processes	72
Exercise 5.....	75
Understanding File Security	76
Working with File and Directory Permissions.....	77
Understanding File and Directory Permissions	77
Changing File and Directory Permissions	79
Alternate <i>chmod</i> syntax	81
Changing the Default File and Directory Permissions	81
Exercise 6.....	86

Working with Users and Groups	89
Finding User Information	89
Switching Users	90
Joining a New Group	92
Changing File Ownership	94
Exercise 7	97
Printing in UNIX.....	98
Submitting Print Jobs.....	99
Listing Print Requests.....	99
Canceling Print Jobs	100
Appendix A: Solutions to Exercises	101
