

# Introduction to InfoPath

What You Will Learn.....	1
Getting Started with InfoPath .....	2
Examining an Existing Form (Understanding Form Layouts and Controls).....	4
Saving and Submitting Form Data.....	5
Designing a Blank Form Template .....	6
Using the Design Tasks Pane.....	8
Laying Out Your Form .....	9
Inserting a Layout Table .....	11
Adding Text to the Table .....	11
Merging and Splitting Cells .....	12
Adding and Removing Rows and Columns.....	12
Resizing Columns .....	13
Working with Form Controls.....	14
Inserting a Text Box.....	14
Inserting a Date Picker.....	16
Inserting a Section.....	16
Adding Check Boxes .....	17
Controlling Section Spacing .....	17
Previewing the Form and Saving the Template .....	19
Previewing the Form.....	19
Saving the Template .....	19
Filling Out the Form .....	20
Exercise 1: Creating a Basic Form Template .....	21
Formatting Your Form.....	22
Editing an Existing Form Template .....	22
Accessing Formatting Commands .....	22
Applying a Color Scheme.....	24
Formatting Text .....	25
Changing Alignment and Other Paragraph Options .....	26
Copying Formatting .....	26
Formatting Controls .....	27
Formatting the Layout Table .....	27
Exercise 2: Formatting Your Form .....	33

Working with Data Sources .....	34
Understanding Data Binding.....	35
Viewing the Data Source .....	35
Modifying the Built-In Data Source .....	36
Saving the Form Template.....	40
Ensuring Data Accuracy (Modifying Field and Control Properties) .....	41
Changing the Data Type .....	41
Adding a Default Value .....	44
Requiring Data Entry .....	46
Validating Data .....	46
Viewing and Setting Control Properties .....	49
Using List-Based Controls to Pick from a List.....	51
Exercise 3: Data Sources and Validation.....	54
Connecting to an External Data Source .....	56
Creating a Form Template Based on an Access Database.....	56
Understanding the Form Layout and Data Source.....	59
Adding Data Fields to the Form.....	60
Using a Secondary Data Source to Populate a List.....	62
Submitting Data to an External Data Source .....	66
Querying Data from an External Source.....	67
Exercise 4: Working with External Data .....	70
Integrating InfoPath Forms with SharePoint .....	71
Working with SharePoint.....	71
Designing Browser-Compatible Forms .....	72
Populating a List Box with Data from a SharePoint List (Optional).....	77
Publishing a Form Template to a SharePoint Document Library.....	79
Testing the Form in SharePoint .....	83
Appendix A: Adjusting Security.....	87
Appendix B: Solutions to Exercises .....	89
