

Table of Contents

What You Will Learn.....	1
Working with Conditional Statements.....	2
Basic Conditional Structure	2
If...Else	4
Logical Operators in Conditional Statements	6
Exercise 1	7
Validating Forms	8
Understanding Form Validation Options.....	8
Validating Required Fields	9
Validating Confirmation Boxes	11
Checking the String Length	12
General Strategies for Form Validation.....	13
Exercise 2.....	14
Working with Regular Expressions	15
Identifying Patterns.....	15
Checking Pattern Matches	16
Exercise 3.....	17
Understanding Loops	18
For Loops.....	18
While Loops.....	20
Exercise 4.....	23
Working with Arrays	24
Creating Arrays.....	25
Using Arrays with Loops	27
Exercise 5.....	28
Using JavaScript with Window Properties	29
Detecting Resizing	29
Opening New Windows.....	30
Appendix A: Summary of HTML Codes.....	31
Appendix B: JavaScript Reserved Words & Escape Characters	33
JavaScript Escape Characters	34

Appendix C: Summary of Math and Date Objects	35
Math Object Properties	35
Math Object Methods	35
Methods for Getting Information from Date Objects	36
Appendix D: Creating an Array of Document Elements by Tag.....	37
Appendix E: Solutions to Exercises.....	38
