

# Introduction to Web Page Design Using GoLive

What You Will Learn.....	1
Creating a Web Site .....	2
Starting GoLive.....	2
Understanding the Site Organization.....	2
Using the Site Wizard.....	3
Working with the Site Window .....	6
Organizing Your Site Resources.....	7
Understanding the GoLive Work Area.....	9
Creating a Simple Web Page .....	11
Opening the Default Home Page .....	11
Working in the Document Window.....	12
Using the Page Inspector .....	13
Changing the Page Title.....	14
Adding Text to the Page .....	15
Applying Head Formatting.....	15
Saving Your Page .....	17
Viewing the HTML Behind Your Web Page .....	18
Previewing Your Page .....	19
Using the View Palette.....	19
Using Layout Preview Mode .....	20
Previewing Your Pages in a Browser .....	21
Exercise 1: Creating a Simple Web Page .....	23
Formatting Paragraphs.....	24
Creating Lists.....	24
Aligning and Indenting Paragraphs .....	25
Adding Line Breaks .....	26
Formatting Text .....	27
Applying Physical Styles .....	27
Applying Structural Styles.....	27
Changing Font Size.....	28
Applying Font Sets .....	29
Changing Text Color.....	31
Exercise 2: Formatting Text and Paragraphs.....	33
Setting the Background Color and Image.....	34
Setting the Background Color.....	34

Using Background Images.....	35
Working with Source Code.....	37
Editing HTML Code.....	37
Identifying Problems with Source Code.....	37
Cleaning up HTML Code.....	37
Exercise 3: Designing Page Backgrounds and Editing HTML Code.....	38
Adding Horizontal Lines.....	39
Using the Objects Palette.....	39
Adding Horizontal Lines.....	39
Formatting Horizontal Lines.....	40
Inserting Images.....	42
Creating a New Page.....	42
Inserting Images.....	42
Selecting Images.....	43
Resizing Images.....	44
Aligning Images.....	44
Exercise 4: Inserting Images.....	48
Using Layout Tools.....	49
Using the Layout Grid.....	49
Placing Images on the Layout Grid.....	49
Using Layout Text Boxes.....	50
Tips for Arranging Objects.....	51
Moving Text and Images to a Layout Grid.....	54
Exercise 5: Arranging Objects.....	55
Working with Tables.....	56
Inserting Tables.....	56
Entering Text.....	57
Selecting Cells.....	57
Adjusting Column Width.....	58
Sorting Table Contents.....	59
Inserting and Deleting Rows and Columns.....	61
Adding a Caption.....	61
Customizing the Appearance of Your Table.....	62
Exercise 6: Working with Tables.....	64
Adding Date and Time Stamps.....	65
Working with Frequently Used Objects.....	66

Creating Links.....	67
Uniform Resource Locators.....	67
Creating Internal Links Between Pages.....	67
Viewing Linked Files in Navigation View.....	68
Exercise 7: Creating Links.....	69
Preparing a Site for Publication.....	70
Checking for Spelling Errors.....	70
Using Find and Replace.....	72
Cleaning up the Site.....	75
Identifying Pages with Errors.....	76
Viewing Document Statistics.....	76
Summary Exercise.....	78
Appendix A: Web-Safe Colors.....	79
Hexadecimal Notation.....	79
Appendix B: Solutions to Exercises.....	81

## What You Will Learn

This course provides an introduction to creating Web pages in Adobe GoLive. In this class, you will create a simple Web site involving several pages that incorporate text, images, tables, and other Web objects. You will begin by creating the site and organizing your resources (pages and images) in the Web site; then you will practice using GoLive's tools to design the pages in the site.

Throughout the course, you will learn to:

- Effectively use GoLive's tools and work area
- Create and organize simple Web sites
- Add pages to your Web sites
- Incorporate text and images into your Web pages
- Format text and paragraphs
- Set background color and images
- Arrange text and images using the layout grid
- Use tables to organize text
- Create links between the pages of your site
- Find, replace, and check the spelling of text in your Web sites
- Clean up and find errors in your sites
