Introduction to Fireworks

What You Will Learn 1

Getting Started with Fireworks 2
- Using the Hand and Zoom Tools 4

Understanding Artwork Modes (Vector vs. Bitmap) 5

Understanding File Formats 6
- PNG Files 6
- GIF Files 7
- JPEG Files 8
- Naming Files 9

Creating Vector Artwork 10
- Using the Tools Panel 10
- Creating Basic Shapes 11
- Deleting Shapes 11
- Drawing Other Basic Shapes 12

Working with Color 15
- Using the Swatches Panel 15
- Using the Color Mixer 16

Changing Stroke Attributes 17

Changing the Fill 21
- Applying a Solid Fill 21
- Applying a Gradient Fill 22
- Applying a Pattern Fill 24
- Adding a Texture 24
- Changing the Edge 25

Exercise 1 26

Transforming Objects 27
- Scaling and Rotating 27
- Skewing and Rotating 28
- Distorting and Rotating 29
- Resetting the Rotation Axis 29

Importing Vector Graphics 30

Modifying Artwork 32
- Changing the Stacking Order 32
- Grouping Objects 34

Flipping and Rotating Objects 34

Adding Text 36

Using Filters 37
Applying a Filter 37
Editing a Filter 38
Applying Multiple Filters 38
Removing Filters 39

Using Styles 40
Applying a Predefined Style 40
Creating Your Own Style 41

Using the History Panel 44

Exercise 2 46

Working with Bitmaps 47
Opening Bitmap Images 47
Using Bitmap Selection Tools 47
Using the Eraser 52
Changing the Eraser Properties 53
Using the Rubber Stamp to Clone Images 53
Rubber Stamp Options 54

Exercise 3 55

Cropping an Image 56

Exporting and Optimizing Fireworks Files 58
Using the Export Wizard 58
Previewing the Recommendations 60
Understanding Selective JPEG Compression 63

Using Bitmap Tools 64
Using the Pencil Tool 64
Drawing with the Brush Tool 65
Working with Bitmap Paths 67

Working with Layers 68
Adding Objects to Layers 69

Exercise 4 71

Working with Masks 72
Creating a Vector Mask 72
Altering the Mask 73

Copying the Masked Object 75
Applying a Bitmap Mask 76
Using the Paste Inside Command 78

Creating Animations 80
Creating a Simple Movement Animation 80
Previewing the Animation in a Browser 83
Modifying the Looping Options 83
Setting the State Delay 84
Modifying the Animation Path 85
Using the Property Inspector to Modify Settings 85
Adding Multiple Animations 86
Sharing Layers 88
Saving the Animation 90

Tweening Animations 93
Tweening an Irregular Path 93
Onion Skinning 95
Tweening with Filters 97

Exercise 5 100

Working with Hotspots and Image Maps 101
Creating an Image Map 101
Exporting Image Maps 103

Creating Rollovers 105
Creating a Basic Swap Image Rollover 105
Using the Behaviors Panel 107
Creating a Disjointed Rollover 107
Editing a Behavior 111

Exercise 6 112

Appendix A: Creating Buttons with States 113

Appendix B: Creating a Tabbed Navigation Bar 118

Appendix C: Creating Pop-Up Menus 121

Appendix D: Solutions to Exercises 127
