

Managing a Web Server Using Internet Information Server

Web Server.....	1
TCP/IP.....	2
Exercise 1: Basic Web Server Concepts.....	10
Installing IIS 5.0.....	12
Hardware Considerations.....	12
Network Considerations.....	14
Windows 2000 Configuration Issues.....	16
IIS 5 Installation Packages.....	17
Exercise 2: Install IIS 5.0.....	19
Configure Web and FTP Sites.....	22
Preparing to Configure Web Sites.....	22
Configuring Web Sites.....	23
Configuring Multiple Web Sites.....	26
Configure FTP Sites.....	28
Exercise 3: Configure Web and FTP Sites.....	30
Securing IIS.....	35
Security Concepts.....	35
Installing a Secure Web Server.....	36
Maintaining a Secure Web Server.....	37
Exercise 4: Securing IIS.....	51
Managing Log Files.....	54
Logging Options.....	54
Analyzing Log Files.....	58
Exercise 5: Managing IIS Log Files.....	61
Authentication and Encryption.....	65
Web Authentication Options.....	65
Exercise 6: Site Authentication.....	70
SSL and Certificate Concepts.....	73
Configure SSL to Authenticate the Site and to Encrypt Data.....	74
Configure SSL to Authenticate Users.....	75
Exercise 7: Configuring SSL.....	79

Web Applications on IIS.....	83
Web Application Manager.....	83
IIS Application Types.....	83
Connecting to Databases.....	85
Exercise 8: Building a Web Application That Connects to a Database.....	86
Performance Tuning.....	87
Optimizing the Server Configuration.....	87
Monitoring Server Performance	89
Additional Resources for Performance Monitoring.....	95
Exercise 9: Performance Tuning and Testing -- Web Server Performance.....	96
Exercise 10: Concept Review	97
Appendix A: Network Diagram.....	100
Appendix B: Employee Files for Exercise 8.....	101
Appendix C: Plant Files for Exercise 8.....	109
Appendix D: Solutions to Exercises	112
Solutions to Exercise 1: Basic Web Server Concepts.....	112
Solutions to Exercise 2: Install IIS 5.0.....	115
Solutions to Exercise 3: Configure Web and FTP Sites	118
Solutions to Exercise 4: Securing IIS	123
Solutions to Exercise 5: Managing IIS Log Files	126
Solutions to Exercise 6: Site Authentication	130
Solutions to Exercise 7: Configuring SSL.....	133
Solutions to Exercise 8: Building a Web Application That Connects to a Database	137
Solutions to Exercise 9: Performance Tuning and Testing -- Web Server Performance.....	138
Solutions to Exercise 10: Concept Review.....	140
