

# Introduction to JavaScript

|  |    |
|--|----|
| What You Will Learn.....                   | 1  |
| Introduction to JavaScript.....            | 2  |
| What JavaScript Can Do.....                | 2  |
| Java vs. JavaScript.....                   | 3  |
| Objects and Properties.....                | 3  |
| Methods.....                               | 4  |
| Basic Tags.....                            | 5  |
| Where to Place JavaScript in HTML.....     | 5  |
| Using the Script Tag.....                  | 5  |
| Document.Write.....                        | 6  |
| Comments in JavaScript.....                | 6  |
| Concatenation.....                         | 7  |
| Displaying the Current Date.....           | 7  |
| Placing the Script Outside the Header..... | 8  |
| Debugging.....                             | 8  |
| Exercise 1.....                            | 9  |
| Introduction to HTML DOM.....              | 10 |
| Using getElementById and innerHTML.....    | 11 |
| Storing Scripts in External Files.....     | 11 |
| Exercise 2.....                            | 13 |
| Working with Variables.....                | 14 |
| Declaring a Variable.....                  | 15 |
| Using a Variable.....                      | 15 |
| Understanding Types of Data.....           | 16 |
| Expressions.....                           | 17 |
| Assignment Expressions.....                | 17 |
| Arithmetic Expressions.....                | 18 |
| Rounding Numbers.....                      | 20 |
| Exercise 3.....                            | 21 |
| Working with Events.....                   | 22 |
| Event Handlers.....                        | 22 |
| Using Functions.....                       | 24 |
| Passing Variables to Functions.....        | 25 |
| Getting Values from Form Fields.....       | 25 |
| Exercise 4.....                            | 27 |

|   |    |
|---|----|
| Using Event Handlers to Expand or Collapse Sections of the Page ..... | 28 |
| Exercise 5 .....  | 29 |
| Working with the Date Object .....                                    | 30 |
| Identifying Dates .....   | 30 |
| Methods for Getting Information from Date Objects .....               | 31 |
| Methods for Setting and Calculating with Date Objects .....           | 32 |
| Exercise 6 .....  | 34 |
| Adding Alert Boxes .....  | 35 |
| Appendix A: Summary of HTML Codes .....                               | 36 |
| Appendix B: JavaScript Reserved Words & Escape Characters .....       | 39 |
| Appendix C: Regular Expression MetaCharacters and Methods .....       | 41 |
| Appendix D: Displaying the HTML5 Range Item Value .....               | 42 |
| Appendix E: Solutions to Exercises .....                              | 43 |
