

# Intermediate Applications of JavaScript

What You Will Learn.....	1
Working with Conditional Statements.....	2
Basic Conditional Structure .....	2
If...Else .....	4
Logical Operators in Conditional Statements.....	6
Exercise 1 .....	7
Validating Forms .....	8
Understanding Form Validation Options.....	8
Validating Required Fields .....	9
Validating Confirmation Boxes .....	11
Checking the String Length .....	11
General Strategies for Form Validation.....	13
Exercise 2.....	14
Working with Regular Expressions .....	15
Identifying Patterns.....	15
Checking Pattern Matches .....	16
Exercise 3.....	17
Understanding Loops .....	18
For Loops.....	18
While Loops.....	20
Exercise 4.....	23
Working with Arrays .....	24
Creating Arrays.....	25
Using Arrays with Loops .....	27
Exercise 5.....	28
Using JavaScript with Window Properties .....	29
Detecting Resizing.....	29
Opening New Windows.....	29
Appendix A: Summary of HTML Codes.....	31
Appendix B: JavaScript Reserved Words & Escape Characters .....	35

Appendix C: Summary of Math and Date Objects .....	38
Appendix D: Creating an Array of Document Elements by Tag.....	42
Appendix E: Solutions to Exercises.....	43
