

Advanced SQL Queries: Level 2

What You Will Learn.....	1
Using Functions to Manipulate Data	2
Date Functions	2
Exercise 1	13
String Functions	14
Exercise 2.....	18
Special Purpose Queries	19
Irregular Grouping Patterns	19
Top Value Queries	23
Union Queries Refresher.....	31
Exercise 3.....	32
Percentages, Running Totals and Subtotals	33
Percent of Total.....	33
Running Totals Using Correlated Subqueries.....	35
Exercise 4 (Optional)	41
Metadata Queries	42
Schemabinding.....	44
Using PIVOT to Transform Query Results	47
Additional PIVOT Techniques	50
Creating More Complex Cross-Tabs	52
Saving Pivot Results as Views.....	53
Using the UNPIVOT Operator	54
Self-Join	56
Appendix A: Database Tables	58
Appendix B: SQL Server Data Types.....	69
Appendix C: Solutions to Exercises	72
