

# Advanced SQL Queries: Level 3 Data Analysis

What You Will Learn.....	1
Customer Tenure.....	2
Customer Tenure.....	2
Factors that Affect Customer Tenure.....	4
Common Table Expressions (CTE).....	4
Aggregation Functions.....	5
Multiple Common Table Expressions (CTE) in a Query .....	7
Exercise 1 .....	9
Censoring/Truncation .....	10
Left Truncation and Right Censoring .....	10
Risks.....	14
Exploring Customer Churn.....	15
Exercise 2.....	18
Customer Survival Analysis .....	19
What is Survival Analysis.....	19
Hazards .....	19
Calculating Survival.....	25
Point Estimate for Survival.....	27
Customer Retention .....	29
Exercise 3.....	31
Identify Customers.....	32
String Manipulation .....	33
String Functions .....	34
Billing versus Shipping Addresses .....	38
Exercise 4.....	39
Understanding Sales: Frequency and Size of Purchases.....	40
Customer Purchases: Averages.....	44
Customer Order Amounts .....	44
Comparing Orders over Time .....	45
How Long a Customer is a Customer .....	46
Average Span of Time Between Purchases .....	48
How Many New Customers Each Year .....	48
Exercise 5.....	50
Market Basket Analysis .....	51
Determine Popular Products .....	51

Finding the Most Popular Brands .....	52
Market Basket .....	53
Individual Customer Preferences .....	54
Customer Preference .....	54
Appendix A: SQL Programming Techniques.....	57
Appendix B: Solutions to Exercises .....	59
