

# SQL Query Optimization

What You Will Learn.....	1
SQL Order of Operations.....	2
Logical Order of Operations versus Actual Order of Operations .....	3
Actual Order.....	3
How Optimization Works .....	9
Writing SQL for Maintenance .....	10
Exercise 1 .....	14
Cost of Data .....	15
Client Statistics .....	15
Need for Specification .....	16
Filtering Data .....	17
Exercise 2.....	26
Set Operators, Views, and Stored Procedures .....	27
Union and Union All.....	27
Except .....	30
Create View .....	31
Intersect.....	32
Stored Procedures .....	32
Exercise 3.....	34
Indexes and Statistics.....	35
What is an Index?.....	35
SQL Server Index Structure.....	35
Clustered and Non-Clustered Indexes .....	36
Creating an Index.....	39
Updating an Index.....	41
SQL Server Statistics .....	41
When to Manually Update Statistics.....	49
Exercise 4.....	50
Query Optimization Suggestions .....	51
Overriding the Query Optimizer.....	52
Appendix A: Solutions to Exercises .....	56
