

# Introduction to Tableau

|                                                         |    |
|---------------------------------------------------------|----|
| What You Will Learn.....                                | 1  |
| Know Your Data.....                                     | 2  |
| The Start Page.....                                     | 3  |
| Connecting to Data .....                                | 4  |
| The Data Connection Window.....                         | 5  |
| Navigating and Manipulating the Tableau Interface ..... | 8  |
| Interface Basics.....                                   | 8  |
| The Data Pane: Dimensions and Measures.....             | 9  |
| Adding Worksheets to the Workbook.....                  | 9  |
| Visualizing Data: Shelves and Cards.....                | 10 |
| The Marks Cards.....                                    | 10 |
| Sorting Data .....                                      | 13 |
| Filtering Discrete Data.....                            | 14 |
| Closing a Workbook .....                                | 15 |
| Exercise 1 .....                                        | 16 |
| Creating Calculated Fields.....                         | 17 |
| Using the Calculation Editor.....                       | 17 |
| Filtering Continuous Data.....                          | 19 |
| Visualizing Data: Show Me.....                          | 21 |
| Exercise 2.....                                         | 22 |
| Date Data in Tableau .....                              | 24 |
| Show Me lines.....                                      | 24 |
| Marking Date Data.....                                  | 25 |
| Dashboards.....                                         | 26 |
| Creating, Naming, and Sizing Dashboards.....            | 26 |
| Adding Worksheets to a Dashboard .....                  | 27 |
| Exercise 3.....                                         | 28 |
| Adding a Data Source .....                              | 29 |
| Working with Geographical Data.....                     | 30 |

|                                          |    |
|------------------------------------------|----|
| Splitting Data .....                     | 30 |
| Creating Hierarchies .....               | 31 |
| Data-Driven Maps.....                    | 32 |
| Different Types of Tableau Maps.....     | 32 |
| Exercise 4.....                          | 33 |
| Navigating the Workbook.....             | 34 |
| Viewing Sheets .....                     | 34 |
| Dashboard Interactivity.....             | 35 |
| Highlighting Action .....                | 35 |
| Filter Action.....                       | 37 |
| URL Action.....                          | 38 |
| Appendix A: Tableau-Friendly Data .....  | 40 |
| Appendix B: Solutions to Exercises ..... | 45 |
