

Intermediate Applications of Tableau

What You Will Learn.....	1
Tableau Basics	2
Workbooks and Worksheets	3
Dimensions and Measures	4
Splitting Data	5
Data Hierarchies.....	5
Geographical Data	6
Filters	6
Dashboards.....	7
Exercise 1	8
Connecting to Access.....	9
Joining Data	10
Join Dialog Box	11
Visualizations from Joined Data.....	11
Blending Data	12
Reference Lines	13
Exercise 2.....	15
Creating Special Views.....	16
Shared Axis Charts	16
Dual Axis Charts.....	18
Disaggregated Data.....	21
Scatter Plots with Small Multiples.....	22
Exercise 3.....	23
Table Calculations	24
Totals.....	24
Displaying Percentages.....	24
More Table Calculations.....	24
Forecast.....	25
Creating Data Stories	26
Adding Story Elements	26
Deleting Story elements.....	26
Duplicating a Story Stop.....	27
Reordering Story Stops.....	27
Adding a Description	27

Formatting Stories.....	27
Presentation Mode	27
Exercise 4.....	28
Exporting, Printing, and Publishing Data	29
Exporting Worksheets.....	29
Exporting Dashboards and Stories.....	29
Printing Workbooks	30
TWB vs. TWBX Files.....	30
Publishing to Tableau Server or Tableau Online	30
Editing Data Connections (Optional).....	30
Appendix A: Solutions to Exercises	31
