

Advanced Applications of R: Level 2

Overview.....	1
What You Will Learn.....	1
Creating Scripts.....	2
First Script.....	3
Script Errors.....	5
Script Writing Best Practices.....	5
Reuse and Expand.....	6
Exercise 1.....	9
Creating Functions.....	10
Create a Function.....	10
Syntax of a Function.....	11
Writing and Testing.....	12
Exercise 2.....	17
Control Structures Inside of Scripts.....	18
If, Else.....	18
Multiple Conditions: & and 	18
Lists and List Structures.....	21
List().....	21
List Data Types.....	21
Getting List Elements.....	21
List Functions.....	24
Apply Family.....	25
Apply.....	25
Lapply and Sapply (Optional).....	27
Tapply (Optional).....	28
Exercise 3.....	31
Regular Expressions.....	32
Data Cleanup.....	32
Grep.....	32
Sub.....	33
Date Formatting.....	33
Removing Columns.....	33
Regular Expression Patterns.....	34
File Functions.....	36
Write.csv.....	36
Directories.....	36

To Find Files	36
Exercise 4.....	37
Statistics	38
Summary	38
Quantiles	38
Understanding Distributions (Optional)	39
Correlations.....	42
Exercise 5 (Optional)	44
Graphs and Plotting.....	45
Line Plots	45
Plotting Densities	46
Formatting Plots.....	48
Saving the Chart to a File.....	50
Bar/Column Chart.....	51
Box Plots.....	53
Pie Chart (Optional).....	54
Exercise 6.....	56
Producing Reports.....	57
Appendix A: Keyboard Shortcuts.....	58
Appendix B: RStudio Features	59
Appendix C: Loops to Repeat Commands.....	66
Appendix D: Solutions to Exercises	70
