

Advanced Power BI Level 1

What You Will Learn.....	1
Creating Calculated Columns	2
Calculated Columns Using Related Data Sets	5
Creating Measures	8
Measures Using Related Datasets.....	12
Common X Functions.....	14
Exercise 1.....	15
Ranking Values.....	16
Using RANK.EQ	16
Using RANKX.....	19
Using Calculate to Change Context.....	22
Exercise 2.....	23
Creating Quick Measures.....	24
Using Quick Measures to Calculate Average	25
Using Quick Measures to Calculate Filtered Values	27
Using Quick Measures to Calculate Month over Month Change.....	28
Exercise 3.....	30
Performing Query Joins	31
Join Types.....	34
Exercise 4.....	35
Using What-If Parameters.....	36
Filtering with Parameters (Optional)	38
Using Tooltip Pages.....	41
Appendix A: Solutions to Exercises	42
